About us

Hungary-based DesktopDigital Solutions has been providing high-quality translations and DTP services since 2014 for several international language service providers and individual clients. Our Company works with a team of professional Project Managers, in-house translators and DTP specialists. Our experts take care of the needs of our Customers from short translations and simple DTP tasks to the most complex multilingual localization and recreation projects. If you are looking for high quality and better value for your money, do not hesitate to contact us.
